

# The Liver Week 2020

August 13-14, 2020  
*Navigating Towards Precision Medicine with Current Knowledge in Liver Disease*

## VIRTUAL CONFERENCE

### GENERAL ORAL PRESENTATION 1 [August 13, 2020, 14:00:15:10]

Time	Abstract No.	Subject	Presenting Author	Institution
14:00-14:10	158	Kahweol Activates the NRF2/HO-1 Pathway by Decreasing Keap1 Expression Independently of p62 and Autophagy Pathways	Hye-Young Seo	Keimyung University
14:10-14:20	414	TIP-47 Accelerates Fatty Change of Liver During Alcohol Ingestion in HBx Transgenic Mice	Hoon Gil Jo	Wonkwang University
14:20-14:30	253	Hepatitis B Core-Related Antigen is a Satisfactory Marker in Differentiating Hepatitis B e Antigen-Positive Chronic Infection and Hepatitis B e Antigen-Positive Chronic Hepatitis	Han Ah Lee	Korea University
14:30-14:40	333	All Cause of Mortality and Incidence of Hepatocellular Carcinoma Among Chronic Hepatitis C Patients in South Korea: A Prospective, Multicenter Cohort Study	Gwang Hyeon Choi	Seoul National University
14:40-14:50	35	Weight Gain during Early Adulthood, Trajectory of Body Shape and the Risk of Nonalcoholic Fatty Liver Disease Among Women: A Prospective Cohort Study	Mi Na Kim	CHA University
14:50-15:00	153	Bedside Risk-Scoring Model for Prediction of 30 Days' Mortality in Patients with Cirrhosis Underwent Endoscopic Band Ligation for Acute Variceal Bleeding	Jung Hee Kim	Hallym University
15:00-15:10	246	Population-Based Epidemiology of Primary Biliary Cholangitis in South Korea	Kyung-Ah Kim	Inje University

### GENERAL ORAL PRESENTATION 2 [August 14, 2020, 13:30-14:40]

Time	Abstract No.	Subject	Presenting Author	Institution
13:30-13:40	329	Serum Small Extracellular Vesicle-Derived LINC00853 as a Novel Diagnostic Marker for Early Hepatocellular Carcinoma	Suna Sung	Ajou University
13:40-13:50	313	Current Status of Ultrasonography Examination Operated by National Cancer Surveillance Program for Hepatocellular Carcinoma: Multi-center Large-Scale Research	Jeong-Ju Yoo	Soonchunhyang University
13:50-14:00	295	Development of Machine Learning-Based Clinical Decision Support System for Hepatocellular Carcinoma	Gwang Hyeon Choi	Seoul National University
14:00-14:10	332	Proton Beam Radiotherapy versus Radiofrequency Ablation Treatment in Patients with Recurrent Hepatocellular Carcinoma: A Randomized Controlled Phase 3 Non-Inferiority APROH Trial	Joong-Won Park	National Cancer Center Korea
14:10-14:20	448	Clinical Significance of Intraoperative Bile Culture in Surgery Including Bile Duct Resection	Youngju RYU	Sungkyunkwan University
14:20-14:30	465	Medium Not Too High Intensity versus Medium Not Too Low Intensity Exercise Effect on Fatty Liver – Post Cholecystectomy with Metabolic Syndrome: A Comparison Study	Alvin Wiharja	Svarga e-Motion Sanctuary, Indonesia
14:30-14:40	561	Development of Novel Multivariable Logistic Regression Model for Predicting Graft Failure within 2 Weeks and 4 Weeks after Liver Transplantation	Jinsoo Rhu	Sungkyunkwan University
